**Quali bisogni in cure palliative pediatriche
Individuarli per orientare la risposta assistenziale**

Dorella Scarponi, Ivanna Gasparini

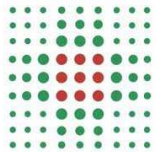

Domain 3: Psychological and Psychiatric Aspects of Care

- Psychological and psychiatric issues are assessed and managed
- Team employs pharmacologic, nonpharmacologic and complementary therapies as appropriate
- Grief and bereavement program is available to patients and families

National Consensus Project
National Quality Forum

DOMAIN 3. PSYCHOLOGICAL AND PSYCHIATRIC ASPECTS OF CARE

PREFERRED PRACTICE 14

- *Measure and document* anxiety, depression, delirium, behavioral disturbances, and other common psychological symptoms using available standardized scales.

PREFERRED PRACTICE 15

- *Manage* anxiety, depression, delirium, behavioral disturbances, and other common psychological symptoms in a *timely, safe, and effective* manner to a level acceptable to the patient and family.

National Consensus Project
National Quality Forum

DOMAIN 3. PSYCHOLOGICAL AND PSYCHIATRIC ASPECTS OF CARE

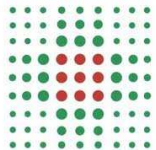

PREFERRED PRACTICE 16

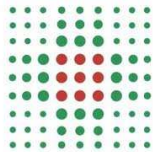

- *Assess and manage psychological reactions* of patients and families to address emotional and functional impairment and loss, (including stress, anticipatory grief and coping), in a regular ongoing fashion.

PREFERRED PRACTICE 17

- *Develop and offer a grief and bereavement care plan* to provide services to patients and families prior to and for at least 13 months after the death of the patient.
